

**NEW INCOME AND PAYROLL TAX OFFSETS
TO CHANGES IN EXCISE TAX REVENUES FOR 2017-2027¹**

Table 1, below, presents the new income and payroll tax offsets that the staff of the Joint Committee on Taxation (“Joint Committee staff”) will apply in its economic models of proposed changes in Federal excise taxes during the first session of the 115th Congress. The Joint Committee staff explained the methodology underlying these estimates in a prior publication.²

The new offsets are calculated on a calendar year by year basis. The new income and payroll tax offsets will be applied to excise tax estimates. Generally, these offsets will be applied to calendar year excise tax effects and then fiscalized. With this publication the Joint Committee staff plans to start using these offsets exclusively.

Table 1. Income and Payroll Tax Offsets Under Present Law Baseline 2017 Through 2027

<u>Item</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>	<u>2021</u>	<u>2022</u>	<u>2023</u>	<u>2024</u>	<u>2025</u>	<u>2026</u>	<u>2027</u>
Income and Payroll Excise Tax Offsets	0.259	0.259	0.260	0.261	0.261	0.260	0.260	0.260	0.260	0.261	0.261

The estimated income and payroll excise tax offsets are close to the long-time standard offset factor of 25 percent. The gradual increase in the offset is explained by forecasted income growth, which increases the average marginal individual income tax rate.

The offsets calculated above take into account both the changes in tax rates that have been legislated to occur over the budget window, as well as adjustments to the taxable portion of income consistent with the current Congressional Budget Office macroeconomic forecast.³
