^{*} For a summary description of these revenue proposals and Treasury Department estimates, see Joint Committee on Taxatlon, Summary of Revenue Provisions in the President's Fiscal Year 1991 Budget Proposal (JCS-3-90), February 5, 1990.

⁽¹⁾ Refundable tax credits involving refunds which exceed tax liability are shown as increased outlays. Outlays will increase by \$0.2 billion in FY1991, \$1.8 billion in FY1992, \$2.0 billion in FY1993, \$2.1 billion in FY1994, and \$2.3 billion in FY1995.

⁽²⁾ Loss of less than \$50 million.

⁽³⁾ Gain of less than \$50 million.

⁽⁴⁾ The Administration proposal has not been fully specified at this time; therefore, an estimate is not yet available.

⁽⁵⁾ Estimate is net of income tax offset.

⁽⁶⁾ This estimate is presented relative to the Congressional Budget Office (CBO) baseline which assumes extension of the Airport and Airway Trust Fund (AATF) taxes with the trigger in effect. The estimate reflects the effects both of removing the trigger and of increasing the rates of certain of the AATF taxes as proposed in the President's budget.

⁽⁷⁾ Estimate for this provision provided by CBO.
