(2) Totals are not available for estimates represented by footnotes.

(3) Loss of less than \$500,000.

(4) Revenue effect net of outlay effect.

(5) Outlay effect.

(6) Increased outlay of less than \$500,000.

(7) Loss of less than \$1 million.

(B) Negligible effect.

\* In addition to the additional technical corrections described in JCX-25-88, September 8, 1988, the amendment contains three more modifications to the technical corrections title of the bill: (1) deleting a provision relating to the Riverwalk project in New York City; (2) clarifying that the investment tax credit cash-out provisions of the 1986 Act prevail over refund offset provisions; and (3) providing that the 1986 Act's election for the recapture of bank bad debt reserves is made on a bank by bank (as opposed to a consolidated group) basis.

\*\* A companion provision mandates the use of the 150-percent declining balance method, switching to the straight-line method for any property used in the trade or business of tarming. Further, single-purpose agricultural or horticultural structures are assigned a recovery period of 10.5 years.
