INTRODUCTION

This document,¹ prepared by the staff of the Joint Committee on Taxation, lists Federal tax provisions that expired in 2024 or are scheduled to expire in the future. Years in which there are no expiring provisions are not included.

For purposes of this document, the staff of the Joint Committee on Taxation considers a provision to be expiring if, on a statutorily specified date, the provision terminates or reverts to the law in effect before the current version of the provision.

However, there are certain instances where a temporary provision is not considered an expiring provision. For example, when Congress changes a law, an accompanying rule may provide a temporary transition rule, such as a rule providing that a change in law does not apply to transactions pursuant to a written binding contract entered into before a given date. While its terms may provide a kind of temporal limitation, such a rule is not considered an expiring provision. Similarly, a deferred effective date by itself generally is not sufficient to make a provision an expiring provision.²

Certain provisions terminate by reference not to a specific date but to a taxpayer's taxable year. For those provisions, the expiration dates listed in this document assume a calendar-year taxpayer. For that reason, the actual expiration dates of such provisions may differ with respect to a fiscal-year taxpayer or a taxpayer with a short taxable year.

Unless otherwise stated, all section references are to the Internal Revenue Code of 1986 (the "Code").³

¹ This document may be cited as follows: Joint Committee on Taxation, *List of Expiring Federal Tax Provisions 2024-2034* (JCX-1-25), January 9, 2025. This document can be found on the Joint Committee on Taxation website at www.jct.gov.

² A recent example of a temporary transition rule is in section 965, which was a key aspect of moving the U.S. international tax system from one based on deferral to one based on exemption. While section 965(l) provides a special recapture rule with respect to certain corporate inversions which may occur within the ten-year period after enactment, the Joint Committee staff does not treat section 965(l) as a separate expiring provision.

³ Certain expiring provisions refer to a section in a public law, rather than a Code section. Such provisions may not directly amend the Code but may affect how one or more Code sections are applied.

A. Provisions Expired in 2024
