INTRODUCTION

This pamphlet,¹ prepared by the staff of the Joint Committee on Taxation, provides a listing of present Federal excise taxes and tax rates as of January 1, 1992.² The pamphlet also provides data on Federal excise tax receipts for fiscal years 1991-1993, as presented in the Fiscal Year 1993 Budget. This pamphlet is intended to provide summary information on current Federal excise taxes for Members of the House Committee on Ways and Means, Members of the Senate Committee on Finance, and other Members of Congress.

Part I lists the Federal excise tax rate changes included in 1991 legislation. The listing of the various current Federal excise taxes (Part II) is organized into 16 categories, including a category of "miscellaneous" excises. The listing includes information as to whether revenues from the particular excise taxes go into a Trust Fund (or other special fund), any scheduled expiration dates or changes in tax rates, and the pertinent sections of the Internal Revenue Code.³ Part III of the pamphlet presents data on Federal excise tax receipts for fiscal years 1991-1993, as included in the Fiscal Year 1993 Budget and from the Treasury Department. An Appendix contains tables showing: (1) the excise tax rates on feedstock chemicals (sec. 4661); and (2) the list of taxable substances subject to the excise tax on certain imported (chemical) substances (sec. 4671).

¹ This pamphlet may be cited as follows: Joint Committee on Taxation, *Schedule of Present Federal Excise Taxes (as of January 1, 1992)* (JCS-7-92) March 27, 1992.

² See also, prior Joint Committee staff pamphlet, *Schedule of Present Federal Excise Taxes (As of January 1, 1991)* (JCS-3-91) March 4, 1991.

³ Code sections in the 9500's refer to the Trust Fund Code provisions. The other Code sections listed refer to the applicable excise tax provisions of the Internal Revenue Code.

⁴ Title VIII of the "Intermodal Surface Transportation Efficiency Act of 1991" (P.L. 102-240). Title VIII is cited as the "Surface Transportation Revenue Act of 1991" ("1991 Act").

⁵ A net Highway Trust Fund tax of 3 cents per gallon continues to apply to certain privately operated, scheduled intercity buses (sec. 6427(b)).

Item	Excise Tax Change
------	-------------------

Transfers of certain recreational fuel tax revenues

The 1991 Act (sec. 8003) established a new Trust Fund ("National Recreational Trails Trust Fund," new Code sec. 9511), financed by transfers from the Highway Trust Fund of monies attributable generally to the amount of revenues received in the Highway Trust Fund from "nonhighway recreational fuel taxes" through September 30, 1997. (For the first year, the transfer from the Highway Trust Fund is to be 0.3 percent of the total Highway Trust Fund receipts (less credits and refunds); thereafter, the transfer is to be the estimated equivalent of revenues attributable to the nonhighway recreational fuel taxes.)

Nonhighway recreational fuel taxes are those imposed under sections 4041, 4081, and 4091 on gasoline, diesel and special motor fuels (at the Highway Trust Fund rates) for (1) fuel used in vehicles and equipment on recreational trails or back country terrain (including highway vehicles when used on recreational trails, trail access roads not eligible for Federal highway funding, or back country terrain) and (2) fuel used in camp stoves and other non-engine uses in outdoor recreational equipment. (This does not include fuel taxes on small-engine outdoor power equipment, which are transferred to the Aquatic Resources Trust Fund.)

The purposes for which funds may be expended from the National Recreational Trails Trust Fund are specified in section 1302 of the 1991 Act, and amounts transferred from the Highway Trust Fund are limited to \$30 million per year for fiscal years 1992-1997.

C. Highway and Rail Excise Taxes (sec. 9503) ¹⁵	
I. Motor fuels (highway):* ^{16 17}	
Gasoline (sec. 4081).....	14 cents per gallon.
Diesel fuel (secs. 4041(a)(1), 4091).....	20 cents per gallon generally. ¹⁸
Special motor fuels (incl. alcohol fuels from petroleum) (sec. 4041(a)(2)).....	14 cents per gallon.
Methanol and ethanol fuels: ¹⁹	
Methanol fuels from other than petroleum or natural gas (sec. 4041(b)(2)).....	8 cents per gallon (i.e., a 6 cents per gallon exemption).
Ethanol fuels from other than petroleum or natural gas (sec. 4041(b)(2)).....	8.6 cents per gallon (i.e., a 5.4 cents per gallon exemption).

* See also E.2., "Taxes for Leaking Underground Storage Tank Trust Fund," for additional tax of 0.1 cent per gallon (0.05 cent per gallon for methanol and ethanol fuels) on motor fuels (through 1995).

¹⁵ The highway excise taxes and exemptions are scheduled to expire after September 30, 1999: The rates shown apply through September 30, 1995; for October 1, 1995-September 30, 1999, the current 2.5 cents per gallon General Fund motor fuels tax rate is scheduled to expire and thus the listed tax rates will be reduced by 2.5 cents per gallon. Sec. 9503 refers to the Highway Trust Fund.

¹⁶ Revenues equivalent to 2.5 cents per gallon of the taxes on highway motor fuels are retained in the General Fund through September 30, 1995 (after which, this General Fund tax is scheduled to expire); the balance of the highway motor fuels tax revenues is transferred to the Highway Trust Fund. (See also J.2., for transfers of motorboat fuels tax revenues.)

¹⁷ The 1990 Act transferred revenues from the tax on gasoline used in small-engine outdoor power equipment to the Sport Fishing Restoration Account of the Aquatic Resources Trust Fund for wetlands restoration purposes. (See J.2., below.)

¹⁸ A net Highway Trust Fund tax of 3 cents per gallon (17 cents per gallon refund or credit through September 30, 1995, and 14.5 cents per gallon for October 1, 1995-September 30, 1999) applies to certain privately operated, scheduled intercity buses (sec. 6427(b)).

There is a one-time rebate (credit or refund) to the original purchaser of a qualified diesel-powered car, truck, or van having a gross vehicle weight rating of 10,000 pounds or less. The rebate varies with the model year (only available for post-1978 models) and type of vehicle (higher rebate for a truck or van than for a car). The credit applies to such vehicles owned as of January 1, 1985, or originally purchased after January 1, 1985 and before January 1, 1999 (sec. 6427(g)).

¹⁹ Alcohol fuels the content of which is at least 85 percent of methanol, ethanol, or other alcohol.

* See also E.2, "Taxes for Leaking Underground Storage Tank Trust Fund," for additional tax of 0.1 cent per gallon (0.05 cent per gallon for methanol and ethanol fuels) on motor fuels (through 1995).

²⁰ This tax is scheduled to expire after September 30, 1995. Revenues from this tax go to the General Fund.

²¹ Includes tractors of the kind chiefly used for highway transportation with a trailer or semitrailer.

²² Annual tax: the taxable period is July 1-June 30. Tax liability is incurred as of the first month the vehicle is used during the taxable period (prorated).

The use tax is reduced by 25 percent for vehicles (1) used exclusively in transporting harvested forest products to and from the forested site and which are required to be registered for that purpose, or (2) registered in Canada or Mexico.

There is an exemption for vehicles used fewer than 5,000 miles on public highways during the taxable period (7,500 miles for farm vehicles), and for certain local transit buses.

Tax (and Code section)	Tax rates
D. Airport and Airway Excise Taxes (sec. 9502) ²³	
1. <i>Air passenger ticket tax</i> (sec. 4261).....	10 percent of amount paid.
2. <i>International departure tax</i> (sec. 4261(c)).....	\$6 per person.
3. <i>Domestic air cargo tax</i> (sec. 4271).....	6.25 percent of amount paid.
4. <i>Fuels taxes for noncommercial aviation.*</i>	
Gasoline (secs. 4081 and 4041(c)).....	15 cents per gallon.
Nongasoline (jet) (secs. 4041(c) and 4091).....	17.5 cents per gallon.
Nongasoline in alcohol mixture made from ethanol (sec. 4091(d)).....	4.56 cents per gallon.
Nongasoline in alcohol mixture not made from ethanol (sec. 4091(e)).....	3.89 cents per gallon.

* See also E.2., "Taxes for Leaking Underground Storage Tank Trust Fund," for additional tax of 0.1 cent per gallon on motor fuels (through 1995).

²³ The airport and airway taxes are scheduled to expire after December 31, 1995. Under the Omnibus Budget Reconciliation Act of 1990 (H. Rept. 101-964), the conference agreement provided that the revenues from the *increase* in aviation excise tax rates would go into the General Fund through 1992, and to the Airport and Airway Trust Fund for 1993-1995. However, due to a statutory drafting omission, only the increase in the noncommercial aviation fuels taxes actually now goes to the General Fund. A technical correction is needed to have the increased revenues from the air passenger and air cargo taxes (from 8% to 10% for the air passenger ticket tax and from 5% to 6.25% for the air cargo tax) go into the General Fund before 1993. (H.R. 1555, as passed by the House of Representatives on November 26, 1991, contains such a correction.) Sec. 9502 refers to the Trust Fund statute.

Tax (and Code section)	Tax rates
E. Environmental Excise Taxes	
1. Excise taxes for Hazardous Substance Superfund (sec. 9507): ²⁴	
Crude oil tax (sec. 4611)...	9.7 cents per barrel for domestic crude oil and imported petroleum products.
Tax on feedstock chemicals (sec. 4661).....	Tax ranges from \$0.22 to \$4.87 per ton generally. (See Table 1 in the Appendix for specific tax rates for chemicals.)
Tax on certain imported substances (sec. 4671) ²⁵	Generally taxed at the rates applicable to taxable chemicals under sec. 4661 used as materials in the manufacture of the imported substance. If importer does not furnish adequate information to Treasury to determine tax rate, the rate is 5 percent of the value of such imported substance on which a tax is imposed under sec. 4611 or sec. 4661. (See Table 2 in the Appendix for list of taxable substances.)

²⁴ The Superfund also receives revenues from the environmental tax on corporations (sec. 59A), equal to 0.12 percent of the modified alternative minimum taxable income of the corporation in excess of \$2,000,000. This tax applies generally to taxable years beginning after December 31, 1986, and before January 1, 1996 (with an earlier termination as determined below when the Superfund reaches certain levels of unobligated balance or total tax receipts).

The Superfund excise taxes are scheduled to expire after December 31, 1995, or earlier if (1) the Superfund unobligated balance exceeds \$3,500 million at the end of 1993 or 1994, and if the unobligated balance is estimated to exceed this amount at the end of the following year if no Superfund taxes were to be imposed during such year, or (2) when total Superfund tax revenues exceed \$11,970 million (including the sec. 59A tax revenues).

²⁵ The excise tax on certain imported substances has the same expiration schedule as for the other Superfund taxes.

The Secretary of the Treasury is required to add any substance to the list if the Secretary determines that taxable chemicals constitute more than 50 percent of the weight or value of the materials used to produce such substance (determined on the basis of the predominant method of production); the Secretary may remove only those substances which meet neither test.

Tax (and Code section)	Tax rates
2. Taxes for Leaking Underground Storage Tank Trust Fund (sec. 9508):²⁶	
Gasoline (sec. 4081(a)(2)(B)(ii)).....	0.1 cent per gallon (including aviation use).
Other motor fuels (secs. 4041(d) and 4091).....	0.1 cent per gallon (including fuels used in motor vehicles, motorboats, trains, or aviation, but excluding liquid petroleum gas).
Methanol and ethanol fuels (sec. 4041(b)(3)) ²⁷ ..	0.05 cent per gallon.
Fuels used in inland waterways (sec. 4042).....	0.1 cent per gallon.
3. Tax for Oil Spill Liability Trust Fund (sec. 9509):	
Crude oil (sec. 4611(c)(2)(B) and sec. 4611(f))...	5 cents per barrel. ²⁸

²⁶ These taxes are scheduled to expire after December 31, 1995. (See also C.1., 2. and 3., for highway and rail taxes on motor fuels; D.4., for airport and airway taxes on noncommercial aviation fuel; I., for tax on fuels used on inland waterways; and J., for tax on motorboat fuels.)

²⁷ Alcohol fuels the content of which is at least 85 percent methanol, ethanol, or other alcohol.

²⁸ This tax is effective for the period, January 1, 1990–December 31, 1994. However, if the unobligated balance of the Oil Spill Liability Trust Fund exceeds \$1 billion at the end of a quarter, the tax rate will be zero (not apply) for the following quarter(s). If the unobligated balance of the Trust Fund subsequently is less than \$1 billion, the tax rate will be reimposed at 5 cents per barrel beginning the quarter commencing 90 days after the date of the close of the quarter for which the calculation was made.

* Less than \$500,000.

¹ This revenue table generally follows the order for excise tax categories as in Part II of this pamphlet.

² General Fund portion of the respective motor fuels tax revenues as provided in the Omnibus Budget Reconciliation Act of 1990 ("1990 Act"), effective beginning on December 1, 1990.

³ The conference agreement on the 1990 Act stated that the revenues from the increase in the air passenger ticket tax from 8% to 10% and the domestic air cargo tax from 5% to 6.25% would go into the General Fund through 1992. However, due to a technical statutory drafting omission, this was not accomplished. Thus, the budget document reports these revenues all as Trust Fund receipts.

⁴ The harbor maintenance excise tax is classified as a Customs trust fund receipt in the fiscal year 1993 budget.

⁵ Tax revenues transferred from the Highway Trust Fund to the Aquatic Resources Trust Fund (Sport Fish Restoration Account, to be available for wetlands environmental program).

⁶ Under present law, the excise tax on vaccines is scheduled to expire after December 31, 1992. The estimate for fiscal years 1992 and 1993 assume an extension of the current tax rates. (Trust Fund excise tax extensions are assumed in the budget estimating baseline.)

⁷ Totals include the Harbor Maintenance Trust Fund excise tax revenues; see also footnote 4 above.

¹ The tax on feedstock chemicals is scheduled to expire December 31, 1995, or earlier if (1) the Superfund unobligated balance exceeds \$3,500 million at the end of 1993 or 1994, and if the unobligated balance is estimated to exceed this amount at the end of the following year if no Superfund taxes were to be imposed during such year, or (2) when total Superfund tax revenues exceed \$11,970 million (including the sec. 59A tax revenues).

² For periods before 1992, the tax rate for xylene was \$10.13.

¹ For applicable tax, see II. E. 1, and relevant chemical feedstock tax rates in Table 1. Imported taxable substances generally are taxed at the rate applicable to the chemical feedstocks that are components of the taxable imported substance.

The Secretary of the Treasury is required to add any substance to the list if the Secretary determines that taxable chemicals constitute more than 50 percent of the weight or value of the materials used to produce such substance (determined on the basis of the predominant method of production); the Secretary may remove only those substances which meet neither test.
