Joint Committee on Taxation

NOTE: Details may not add to totals due to rounding.

**Legend and Footnotes for JCX-46-09:**

Legend for "Effective" column:

DOE = date of enactment

dmd = disbursements made during

eia = expenses incurred after

fsoua = fuel sold or used after

hbacpa = health benefits and coverage provided after

pba = periods beginning after

pma = payments made after

ppisa = property placed in service after

somda = sales of medical devices after

teia = transactions entered into after

tyba = taxable years beginning after

[1] Estimate included in *Preliminary Analysis of H.R. 3962, the "Affordable Health Care for America Act,"* October 29, 2009, from the Congressional Budget Office to the Honorable Charles B. Rangel, Chairman, Committee on Ways and Means.

[2] Estimate includes interaction effect with FSA cap.

[3] Gain of less than \$50 million.

[4] Estimate includes interaction with other proposals.

[5] Loss of less than \$50 million.

[6] This provision overlaps with the delay in application of worldwide interest allocation contained in the "Worker, Homeownership, and Business Assistance Act of 2009," under consideration by the Senate. If that bill, as it is currently drafted, is enacted before this bill, then the estimated \$26.1 billion revenue effect of this provision would be reduced by \$20.1 billion, to \$6.0 billion.

[7] Any change in Medicare Part D outlays associated with this provision would be reflected in the Congressional Budget Office estimate of Title II—Medicare Beneficiary Improvements, Subtitle A.

[8] Effective for disclosures made after the date which is 12 months after the date of enactment.

[9] Effective with respect to policies and plans for portion of policies or plan years beginning on or after October 1, 2012.
