INTRODUCTION

This pamphlet,¹ prepared by the staff of the Joint Committee on Taxation, provides a listing of present Federal excise taxes and tax rates as of January 1, 1986.² This pamphlet is intended to provide summary information on current Federal excise taxes for Members of the House Committee on Ways and Means, the Senate Committee on Finance, and other Members of Congress.

Part I contains listings of Federal excise tax changes that occurred in 1985 and of changes scheduled for 1986 under present law. Part II is a listing of the various current Federal excise taxes and rates, which is organized into 14 categories (including a category of "miscellaneous" excises). The listing includes information as to whether revenues from the particular excise taxes go into a Trust Fund (or other special fund), any scheduled expiration dates or changes in tax rates, and the pertinent sections of the Internal Revenue Code. An Appendix contains two tables, showing: (1) 1985 excise tax rates on feedstock chemicals and (2) the 1985-1986 excise tax rates applicable to gas guzzling automobiles.
